Graphic Organizer – Women’s Liberation Movement

Directions: Based on the information you learned in class, including primary documents, fill in the following chart with goals of the women’s liberation movement. In other words, what did individuals within the movement hope to address? Record evidence from both primary documents and the timeline to support these goals under “Evidence at the National Level.” Then, after viewing the documentary, “Miles to Go,” record evidence to support these goals under, “Evidence at the Local Level.” Add any additional goals, as necessary.

Goals	Evidence at the National Level	Evidence at the Local Level

Make the connection! How did the struggle for women’s equality happen on a local level?
